**The Environmentally Friendly Cleaners**

**CONVERTA BAG**

**All in one - Laundry / Garment Bag**

1. It functions as a Laundry Bag with a drawstring when flipped upside down.

Laundry mode is used when dirty garments are incoming.

2. After the garments are cleaned, it flips and converts into a Garment Bag with a front zipper. Garment mode is used when garments are being returned.

*We suggest 2 bags per household for frequent SimplyFresh customers; one bag is always in "laundry" mode, while the other bag is at SimplyFresh in "garment" mode.*

SimplyFresh Converta Bags help reduce the 300 million lbs of single use dry cleaning bags in landfills.

*Go Green with a Converta Bag!*
